ENCUMBRANCES

A four-bedroom house on two hectares of olive, fig and carob, ten minutes inland of Faro — built in 2022 to energy class A, fully licensed and free of encumbrances, with a 13-metre salt-water pool under a self-heating cover.

Four bedrooms plus a separate studio above the garage; a 60 m<sup>2</sup> living-dining room; underfloor heating throughout, solar thermal hot water and DAIKIN air conditioning. It works full, and it works quiet. The nearest neighbour is far enough that you don't see them.
